Project Manager and Full Stack Developer with business and technical acumen who's passionate about working with technology teams to achieve common goals, solve complex problems, deliver value, and exceed expectations.

Portfolio

Red Taco Shop
My first formal client, I designed and developed Red Taco Shop's website, incorporating Google Analytics for website traffic monitoring and Framer for advanced animations.

iStore
An e-commerce website that sells apple products, has its own cart system, user authentication and is integrated with Stripe checkout.

Issue Tracker
An application for creating, tracking, and assigning issues. Includes visualization dashboard to help manage issues.
